UKIEG: Background

Established in 2003, to co-ordinate and provide a focus for UK activity concerned with improving indoor environments for people.

UKIEG Objectives

- To promote the health and well being of people in indoor environments.
- To promote research and research collaboration in all aspects of the indoor environment.
- To increase awareness of current activity and knowledge gaps in areas concerned with indoor environments and people.
- To disseminate knowledge concerned with indoor environments and people.
- To promote the effective and efficient design and operation of indoor environments.
- To communicate, integrate and network activity concerned with indoor environments and people.
- To communicate and liaise with other relevant groups within the UK and abroad.
- To promote good practice.

UKIEG Management 2020/21

- 2020 AGM (11th June) held on-line.
- Committee co-opted Alejandro Moreno Rangel, Lancaster University, in particular to assist with external communications e.g. website.
- Committee held 6 on line meetings hosted by UCL.
- Thanks to all committee officers and ordinary members for freely giving their time and expertise.
- Thanks to all members for their interest in promoting healthy indoor environments

UKIEG 2020/21 Highlights

COVID 19 continued to put the spotlight on healthy indoor environments and disrupted our activities significantly.

New web site is launched this week; we welcome your comments and input to develop a wealth of information on healthy indoor environments

Holding our 18th Annual Conference in 2021; virtual (again!).

Thanks to BCU and the committee for all their effort in organising our 2021 Annual conference; hopes for in person meetings were overwhelmed by the second wave of the pandemic.

Our series of annual conferences are a great source of information and provide a perspective on the evolution of knowledge in this field.
